§ 33.30

(4) Other national defense programs and activities.

Set-aside means an official action that requires a person to reserve materials, services, or facilities capacity in anticipation of the receipt of rated orders.

Stafford Act means title VI (Emergency Preparedness) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5195–5197g).

State means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of local governments. The term does not include any public and Indian housing agency under United States Housing Act of 1937.

Water resources means all usable water, from all sources, within the jurisdiction of the United States, that can be managed, controlled, and allocated to meet emergency requirements, except "water resources" does not include usable water that qualifies as "food resources."

Subpart C—Placement of Rated Orders

§ 33.30 Delegation of authority.

The priorities and allocations authorities of the President under title I of the Defense Production Act with respect to all forms of civil transportation have been delegated to the Secretary of Transportation under section 201(a)(4) of Executive Order 13603 of March 16, 2012 (77 FR 16651).

§33.31 Priority ratings.

- (a) Levels of priority. (1) There are two levels of priority established by the Transportation Priorities and Allocations System regulations, identified by the rating symbols "DO" and "DX".
- (2) All DO-rated orders have equal priority with each other and take precedence over unrated orders. All DX-rated orders have equal priority with each other and take precedence over DO-rated orders and unrated orders. (For resolution of conflicts among rated orders of equal priority, see §33.34(c).)

- (3) In addition, a Directive regarding priority treatment for a given item issued by the resource agency with priorities jurisdiction for that item takes precedence over any DX-rated order, DO-rated order, or unrated order, as stipulated in the Directive. (For a full discussion of Directives, see § 33.62.)
- (b) Program identification symbols. Program identification symbols indicate which approved program is being supported by a rated order. DOT will use the letter "T" followed by a number for all transportation-related approved programs. Programs may be approved under the procedures of Executive Order 13603 at any time. Program identification symbols, in themselves, do not connote any priority.
- (c) Priority ratings. A priority rating consists of the rating symbol—DO and DX—and the program identification symbol, such as DO-T1 or DX-T1 for a priority rating under TPAS.

§33.32 Elements of a rated order.

Each rated order must include:

- (a) The appropriate priority rating (e.g. DO-T1 or DX-T1);
- (b) A required delivery date or dates. The words "immediately" or "as soon as possible" do not constitute a delivery date. A "requirements contract," "basic ordering agreement," "prime vendor contract," or similar procurement document bearing a priority rating may contain no specific delivery date or dates and may provide for the furnishing of items or service from time-to-time or within a stated period against specific purchase orders, such as "calls," "requisitions," and "delivery orders." These purchase orders must specify a required delivery date or dates and are to be considered as rated as of the date of their receipt by the supplier and not as of the date of the original procurement document;
- (c) The written signature on a manually placed order, or the digital signature or name on an electronically placed order, of an individual authorized to sign rated orders for the person placing the order. The signature or use of the name certifies that the rated order is authorized under this part and that the requirements of this part are being followed; and

(d)(1) A statement that reads in substance:

This is a rated order certified for national defense use, and you are required to follow all the provisions of the Transportation Priorities and Allocations System regulation at 49 CFR Part 33.

(2) If the rated order is placed in support of emergency preparedness requirements and expedited action is necessary and appropriate to meet these requirements, the following sentences should be added following the statement set forth in paragraph (d)(1) above:

This rated order is placed for the purpose of emergency preparedness. It must be accepted or rejected within [INSERT NUMBER OF HOURS REQUIRED IN §33.33] hours from receipt of the order, in accordance with §33.33(e) of the Transportation Priorities and Allocations System regulation at 49 CFR Part 33.

§ 33.33 Acceptance and rejection of rated orders.

- (a) Mandatory acceptance. (1) Except as otherwise specified in this section, a person shall accept every rated order received and must fill such orders regardless of any other rated or unrated orders that have been accepted.
- (2) A person shall not discriminate against rated orders in any manner such as by charging higher prices or by imposing different terms and conditions than for comparable unrated orders
- (b) Mandatory rejection. Unless otherwise directed by the Department of Transportation for a rated order involving all forms of civil transportation:
- (1) A person shall not accept a rated order for delivery on a specific date if unable to fill the order by that date. However, the person must inform the customer of the earliest date on which delivery can be made and offer to accept the order on the basis of that date. Scheduling conflicts with previously accepted lower rated or unrated orders are not sufficient reason for rejection under this section.
- (2) A person shall not accept a DOrated order for delivery on a date which would interfere with delivery of any previously accepted DO- or DXrated orders. However, the person must

offer to accept the order based on the earliest delivery date otherwise possible.

- (3) A person shall not accept a DX-rated order for delivery on a date which would interfere with delivery of any previously accepted DX-rated orders, but must offer to accept the order based on the earliest delivery date otherwise possible.
- (4) If a person is unable to fill all of the rated orders of equal priority status received on the same day, the person must accept, based upon the earliest delivery dates, only those orders which can be filled, and reject the other orders. For example, a person must accept order A requiring delivery on December 15 before accepting order B requiring delivery on December 31. However, the person must offer to accept the rejected orders based on the earliest delivery dates otherwise possible.
- (5) A person shall not accept a rated order if the person is prohibited by Federal law from meeting the terms of the order.
- (c) Optional rejection. Unless otherwise directed by the Department of Transportation for a rated order involving all forms of civil transportation, rated orders may be rejected in any of the following cases as long as a supplier does not discriminate among customers:
- (1) If the person placing the order is unwilling or unable to meet regularly established terms of sale or payment;
- (2) If the order is for an item not supplied or for a service not capable of being performed;
- (3) If the order is for an item or service produced, acquired, or provided only for the supplier's own use for which no orders have been filled for two years prior to the date of receipt of the rated order. If, however, a supplier has sold some of these items or provided similar services, the supplier is obligated to accept rated orders up to that quantity or portion of production or service, whichever is greater, sold or provided within the past two years;
- (4) If the person placing the rated order, other than the U.S. Government, makes the item or performs the service being ordered;
